Levitikal Ready Mix Nigeria is more than just a concrete supplier; we are your trusted partner in building a stronger future.

Levitikal Ready Mix Nigeria is your trusted partner for superior concrete solutions, transforming construction visions into reality. We specialize in delivering tailored ready-mix concrete to meet the exact requirements of your project. Our unwavering commitment to quality, innovation, and customer satisfaction sets us apart.

With a robust network of commercial and dedicated project plants across Lagos, we cater to a diverse range of projects – from residential and commercial to large-scale infrastructure and civil engineering undertakings. Our expansive reach ensures we can meet the specific concrete requirements of any project, no matter the scale or complexity.

We're pioneering a new standard in the Nigerian market by combining our strong local presence in cement and concrete with strategic partnerships for aggregates and admixtures. This unique approach guarantees a reliable and high-quality supply chain, even in remote project locations. Our dedicated team and flexible plant operations enable rapid deployment and minimal disruption, ensuring your project stays on track.

Our unique selling points and benefits.

Unmatched Quality and Reliability

Our commitment to excellence extends beyond just delivering concrete. We employ rigorous quality control measures, backed by state-of-the-art testing facilities, to ensure every batch meets the highest industry standards. Our dedicated team of experts oversees the entire production process, from sourcing raw materials to final delivery, guaranteeing consistent quality and reliability.

Customization and Innovation

We understand that every project is unique. Our team of engineers and concrete specialists works closely with clients to develop customized concrete solutions tailored to specific project requirements. From high-strength concrete for demanding structures to specialized mixes for challenging environments, we have the expertise to deliver.

Sustainable Practices

Levitikal Ready Mix Nigeria is committed to environmental sustainability. We are continuously exploring ways to reduce our carbon footprint and minimize our impact on the environment. Our sustainable practices include responsible sourcing, waste reduction, and energy efficiency.

Exceptional Customer Service

Our customer-centric approach is at the heart of our business. We prioritize open communication, timely delivery, and technical support to ensure your project runs smoothly. Our dedicated customer service team is available to assist you with any inquiries or concerns.

Levitikal Ready-Mixed Concrete offers a range of high-quality standard concrete mixes suitable for various applications, including foundations, slabs, columns, and more. Our standard product boasts the following features:

DURABILITY

We use premium-quality materials and precise mix proportions to enhance the durability and longevity of our concrete.

WORKABILITY

Our concrete mixes have excellent workability, allowing for easy placement and finishing.

HIGH STRENGTH

Our concrete is designed to provide excellent compressive strength, ensuring structural integrity.

CONSISTENCY

With advanced batching technology, we maintain consistent quality throughout the production process.

Established in 2016, Levitikal Ready Mix Nigeria has rapidly grown into a leading provider of ready-mix concrete solutions in Nigeria. Our commitment to quality, innovation, and customer satisfaction has been the cornerstone of our success. With a comprehensive network of 2 plants strategically located in Nigeria, we are well-positioned to serve a wide range of construction projects, from residential to commercial and infrastructure.

SUPPORTING DOCUMENTS

ORGANIZATIONAL CHART

MANAGEMENT TEAM

SAM AJOSE

CHAIRMAN / CHIEF EXECUTIVE OFFICER)

Samuel Mawuyon Ajose is a seasoned Chief Executive Officer with over 15 years of professional experience and more than a decade in executive leadership roles. He has a strong track record in managing and growing medium to large companies, particularly in the construction, real estate, and tourism industries. Samuel is known for his financial acumen, strategic planning, and ability to drive sales growth even in challenging market conditions.

As the CEO of Levitikal Groups of Company since 2016, Samuel has led significant organizational restructuring, enhancing productivity and fostering a culture of transparency and accountability. He is also the founder of Le Grand Bleu Beach Resort in Accra, Ghana, and Travelfix, one of Africa's leading online travel companies. His leadership at Chariots Global Tech Services Ltd. further highlights his expertise in industrial construction and maintenance projects.

Samuel holds a B.Sc. in Geography from the University of Ilorin and a professional certification in Set Design (Finishing). He is committed to continuous business growth, effective stakeholder engagement, and the successful execution of strategic objectives. Samuel is based in Lagos, Nigeria.

RANDY ANOSO

GENERAL MANAGER

Randy Catalla Anoso, born on June 23, 1972, in Tayabas, Quezon, Philippines, is an experienced Batching Plant Manager with a strong background in electrical engineering. He holds a Bachelor of Science in Electrical Engineering from the Technological Institute of the Philippines, where he studied from 1989 to 1994.

Randy has extensive experience in operations and management roles across various countries, including Nigeria, Qatar, Saudi Arabia, and the Philippines. He is currently employed as a Batch Plant Manager at Elalan Construction Company Nigeria Limited, where he has been since March 2019. His responsibilities include overseeing production processes, ensuring health and safety compliance, managing logistics, and maintaining high-quality standards in concrete production.

Randy has held key positions in companies such as Mobymix Concrete Industries Inc., LafargeHolcim Readymix Nigeria PLC, Ready Mix Qatar, and Al-Ghanim Ready Mix. His roles have ranged from Plant Supervisor to Area Manager, demonstrating his leadership and expertise in optimizing production costs, enhancing safety processes, and improving plant operations.

In addition to his technical skills, Randy is known for his strong problem-solving abilities, excellent customer service, and effective communication skills. He has also completed various trainings and seminars in leadership, health and safety, and risk assessment, further solidifying his expertise in the industry.

MANAGEMENT TEAM

DR. AGBOOLA IBUKUNOLUWA

COMMERCIAL MANAGER

Dr. Ibukunoluwa Agboola is a seasoned professional with over 20 years of experience in the private sector, specializing in project management, public policy analysis, and sustainable development. She has a PhD in Sustainable Development at the University of Abuja and holds a Master's in Financial Economics and a Bachelor's in Banking and Finance from the same institution. Dr. Agboola has demonstrated a strong track record of success in leadership roles, including her current position as Business Development and Commercial Manager at Levitikal Ready Mix Ltd.,

where she has implemented strategies to optimize production, enhance quality control, and drive business growth. Dr. Agboola is skilled in strategic planning, leadership, project management, and communication. Her significant achievements include expanding the customer base and revenue at Levitikal Ready Mix Ltd. She is proficient in data analytics and business analysis and has a strong commitment to community service.

UDUAK WILSON UDOFIA

PLANT MANAGER

Uduak Wilson Udofia is an experienced Plant Manager at Levitikal, where he leads plant operations, ensuring efficient production and quality control. He manages personnel, optimizes processes, implements safety protocols, and maintains equipment to uphold high standards of quality and safety. With expertise in concrete mix design and material optimization, he ensures compliance with international standards and regulations.

Udofia holds an MBA, a Post Graduate Diploma in Business Management, and a Higher National Diploma in Applied Chemistry. He is a certified lead auditor in Quality Management System (ISO 9001:2015) and has extensive experience in quality control for construction materials and batching plant operations. His leadership and technical skills have been pivotal in driving operational excellence and successfully delivering large-scale projects.

JOAN MACAULEY

GROUP HEAD HR.

Joan Macauley is a seasoned Human Resource professional with a Master's degree in International Human Resource Management from Coventry University and a Bachelor's degree in Policy and Strategic Studies from Covenant University. With extensive experience across various HR roles, she has a proven track record in compensation management, employee engagement, and organizational development.

Joan has held key positions, including Compensation Specialist at USL & CAL WEC, where she managed compensation packages and led significant HR projects in the Well Construction business division across the US and Canada. She also served as a Human Resource Business Partner at Schlumberger Nigeria Limited, where she supported multiple business lines, managed employee relations, and oversaw HR processes during the challenging COVID-19 period.

Her skills include stakeholder management, effective communication, decision-making, and driving team collaboration. Joan is passionate about continuous learning, event planning, and traveling, and she has a strong commitment to enhancing organizational success through strategic HR initiatives. She is based in Abuja, Nigeria.

She holds a B.L. from the Nigerian Law School and an L.L.B. from the University of Benin, graduating with honors.

EQUIPMENTS

Levitikal Ready Mix Nigeria is equipped with state-of-the-art machinery and technology to ensure efficient and high-quality concrete production and delivery. Key pieces of equipment include:

- Batching Plants: These automated systems precisely measure and mix the various components of concrete, ensuring consistency and accuracy.
- Concrete Mixers: Large-capacity mixers thoroughly blend the ingredients to create a homogenous concrete mixture.
- Concrete Pumps: These powerful machines efficiently transport concrete to construction sites, even in challenging terrain or at high altitudes.
- Transport Trucks: A fleet of specialized trucks is used to deliver ready-mix concrete to customers promptly.
- Quality Control Equipment: Laboratories equipped with advanced testing machines are used to monitor and ensure the quality of concrete.
